

I am totally agianst this. If a tv show or movie is broadcast then it should be free to record. The except would be Pay-Per-View. Some people are unable to view shows or movies during the hours they are shown, unlike Pay-Per-View. Please do not pass this, it will hurt a lot of viewers, and will kill ratings of certian shows. Right now my provider does not carry certian shows I like. I am currently left with dowloading the shows from the internet. With the programs being encrypted, this will be harder for us to view the show not aviable in our market.
